

**NAVY BRAC PMO West Project:**  
*Munitions Non-Time Critical Removal Action  
Production Manufacturing Area (PMA) and  
South Shore Area (SSA) on Navy Owned  
Property – Restricted Access*

**Project Background:**

The PMA and SSA areas have been identified as containing below-ground metallic anomalies which may be munitions or munitions debris from the historic operations at Mare Island. These metallic anomalies are being investigated by controlled excavation. The process includes reacquisition of the target anomalies, excavation, identification and removal.

**Site Contractors:**

Battelle Memorial Institute, Columbus, OH

Integrated Solutions for Remediation (ISR) a Joint Venture  
with Weston Solutions, Inc., Walnut Creek, CA

PIKA International Inc.-Malcolm Pirnie JV Inc., Stafford, TX
